DETAILED ACTION

Response to Amendment

1. Applicants' cancellation of claims 2, 5, 9, and 10 in the reply filed on June 20, 2005 is acknowledged.
2. Applicants' addition of claims 11-20 in the reply filed on June 20, 2005 is acknowledged.
3. Applicants' amendment of claims 1, 3, 4, and 6-8 in the reply filed on June 20, 2005 is acknowledged.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3, 4, 6-8, and 11-16, drawn to an article for use in healing of wounds and repair of bone tissue defects, classified in class 623, subclass 23.74.
 - II. Claims 17-20, drawn to a method of repairing a bone defect, classified in class 623, subclass 23.5.
5. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)).

In the instant case, the method as claimed could be performed with a matrix having an upper surface/side seeded with soft tissue cells, and a bottom surface/side seeded with bone tissue cells. As an alternative, the method as claimed could be performed with a matrix having an

Art Unit: 3738

upper surface/side comprising growth factors specific for soft tissue cells, and a bottom surface/side comprising growth factors specific for bone tissue cells.

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
